

# Research Work Presentation

"The best insurance policy for the future of an industry is research, which will help it to foresee future lines of development, to solve its immediate problems, and to improve and cheapen its products."

Research is what propels humanity forward. It's fuelled by curiosity: We get curious, ask questions, and immerse ourselves in discovering everything there is to know. Learning is thriving. Decades of research have led us to where we are today, i.e. a civilised and modernised society with the knowledge and tools to move forward.

Research Work Presentation is a step ahead to promote the culture of research among undergraduates and postgraduates alike.

This event will be conducted in the following manner:

## **Research Work Presentation:**

Two students/One student from each Institute will be giving a detailed presentation about his area of research(in the topic he/she has an expertise in) highlighting the topic, its significance, findings and scope of improvement. In the first step, Each participating institute will have to submit a brief abstract (300 words) about his/her research work which has to be submitted latest by 16th October 2020.
